

Reflecting on Aging: Setting New Directions

Call for Abstracts

Applied Research Colloquium (ARC)

Thursday, March 8, 2012

Cadboro Commons Building, University of Victoria

The Centre on Aging is pleased to sponsor a celebration of applied and basic aging research. We are hosting a one-day colloquium to provide you with the opportunity to share your research findings with other researchers, students, community partners, government, Vancouver Island Health Authority (VIHA), and other interested parties. This event is a part of **IdeaFest**, which takes place March 5 to 9, 2012 and is an initiative of the Office of the Vice-President Research.

The preliminary format for the day includes:

- One keynote speaker
- Concurrent sessions
- Poster presentations
- Student poster competition with prizes
- Panel discussion
- Post-event networking opportunity

We invite UVic researchers (faculty, students and our community partners) to present their research findings at this colloquium. Researchers are invited to submit abstracts which will be peer-reviewed to approve for presentation on the day of the colloquium. Creativity in presentation styles (e.g., speaker – responder, role-playing, or alternate presentation methods) is encouraged, if your research lends itself to such an approach. Presentations will be approximately 20 minutes in length.

Please use this opportunity to be involved as a presenter, co-presenter or by submitting a poster.

ABSTRACT SUBMISSION DETAILS:

Please submit your abstract using our on-line form at:
www.coag.uvic.ca/ARC_abstract_submission.html

If you have any questions about the event or submission process, please contact the Centre on Aging at senage@uvic.ca or 250-721-6369.
